PIONEERING OUTDOOR DIGITAL DISPLAY TECHNOLOGY

ALL WEATHER, RUGGEDISED, SUNLIGHT READABLE

INTELLIGENT REMOTE DIAGNOSTICS AND MANAGEMENT

Innovative Digital Displays

Ferrograph provide a range of digital displays for both outdoor and indoor applications, which are proven to provide years of trouble free operation.

Our weatherproof, interactive digital displays are available in sizes from 32" to 75". The displays provide easy user interactivity through audio, video, touchscreen and other accessibility options. Operating in tough outdoor conditions, our displays provide vibrant, animated video information and user interaction for a wide range of industries and uses.

Operating internationally, Ferrograph have products in place throughout the UK, Europe, Canada, USA and the Middle East. Our clients range from leading Transport Authorities, such as Transport for London and New York Department of Transport, through to outdoor advertising companies, retail brands and shopping centres.

Digital Options

Fuzion D6 - 6 Sheet Digital Advertising Displays

Ferrograph continues our outdoor digital display innovation with the release of our latest outdoor digital 6 sheet advertising displays range, the 'Fuzion D6'. Designed and engineered to provide years of trouble free performance in outdoor environments, operating 24/7 in ambient temperatures up to 50 C / 122 F.

Incorporating the very latest in outdoor digital display technology, the range is available in a variety of robust architect designed housings that will complement any surroundings.

Available in both 75" and 86" TFT display sizes, the Fuzion D6 range provides near full 6 sheet display size visibility.
